

*Workshop in honour of the Laurea Honoris Causa in
Pharmaceutical Chemistry and Technology to
Dr. William A. Eaton NIH Distinguished Investigator*

**PROTEIN SCIENCE
IN
HUMAN DISEASES**

Friday, 25st May 2018, 2.30 pm
Aula Magna, University of Parma, PARMA (Italy)

Chair: Attila Szabo, NIDDK, NIH, Bethesda, MD, USA

Maurizio Brunori, vice President Accademia dei Lincei, University of «La Sapienza», Rome, Italy

Protein morphogenesis and disease

Benjamin Schuler, University of Zurich, Zurich, Switzerland,

Single-molecule spectroscopy of intrinsically disordered proteins

Roland Netz, Free University of Berlin, Berlin, Germany,

Quantitative Models of Multivalent Influenza, Cholera and Anthrax Inhibition

Gerard Hummer, Max Plank Institute, Frankfurt, Germany,

Membrane sensing and shaping in the endoplasmic reticulum and in autophagy

With the support of
